AUDITORS

The auditor of the Company is Ernst & Young Vietnam Limited.

2. BASIS OF PREPARATION

2.1 Applied accounting Standards and System

The interim consolidated financial statements of the Group expressed in Vietnam dong ("VND") are prepared in accordance with the Vietnamese Enterprise Accounting System and Vietnamese Accounting Standard No. 27 - Interim Financial Reporting and Vietnamese Accounting Standards issued by the Ministry of Finance as per:

- Decision No. 149/2001/QD-BTC dated 31 December 2001 on the Issuance and Promulgation of Four Vietnamese Accounting Standards (Series 1);
- Decision No. 165/2002/QD-BTC dated 31 December 2002 on the Issuance and Promulgation of Six Vietnamese Accounting Standards (Series 2);
- Decision No. 234/2003/QD-BTC dated 30 December 2003 on the Issuance and Promulgation of Six Vietnamese Accounting Standards (Series 3);
- Decision No. 12/2005/QD-BTC dated 15 February 2005 on the Issuance and Promulgation of Six Vietnamese Accounting Standards (Series 4); and
- Decision No. 100/2005/QD-BTC dated 28 December 2005 on the Issuance and Promulgation of Four Vietnamese Accounting Standards (Series 5).

Accordingly, the accompanying interim consolidated statement of financial position, interim consolidated income statement, interim consolidated cash flow statement and related notes, including their utilisation are not designed for those who are not informed about Vietnam's accounting principles, procedures and practices and furthermore are not intended to present the financial position and results of operations and cash flows in accordance with accounting principles and practices generally accepted in countries other than Vietnam.

2.2 Applied accounting documentation system

The Group's applied accounting documentation system is the General Journal system.

2.3 Reporting period

The Group's fiscal year applicable for the preparation of its interim consolidated financial statements starts on 1 January and ends on 31 December.

These interim consolidated financial statements are prepared for the nine-month period ended 30 September 2026.

2. BASIS OF PREPARATION (continued)

2.4 Accounting currency

The interim consolidated financial statements are prepared in VND which is also the Group's accounting currency.

2.5 Basis of consolidation

The interim consolidated financial statements comprise the financial statements of the parent company and its subsidiaries for the nine-month period ended 30 September 2026.

Subsidiaries are fully interim consolidated from the date of acquisition, being the date on which the Company obtains control, and continued to be interim consolidated until the date that such control ceases.

The financial statements of subsidiaries are prepared for the same reporting year as the parent company, using consistent accounting policies.

All intra-company balances, income and expenses and unrealised gains or losses resulting from intra-company transactions are eliminated in full.

Non-controlling interests represent the portion of profit or loss and net assets not held by the Group and are presented separately in the interim consolidated income statement and within equity in the interim consolidated statement of financial position, separately from parent shareholders' equity.

Impact of change in the ownership interest of a subsidiary, without a loss of control, is recorded in undistributed earnings.

3. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

3.1 Change in accounting policies and disclosures

The accounting policies adopted by the Group in preparation of the interim consolidated financial statements are consistent with those followed in the preparation of the Group's annual consolidated financial statements for the year ended 31 December 2025 and the interim consolidated financial statements for the nine-month period ended 30 September 2025 except for the change in the accounting policy arising from the initial adoption of Circular No. 99/2025/TT-BTC.

3.1.1 Changes in accounting policies due to the adoption of new accounting regulations: Circular No. 99/2025/TT-BTC guiding the Enterprise Accounting System

On 27 October 2025, the Ministry of Finance issued Circular No. 99/2025/TT-BTC providing guidance on the enterprise accounting system ("Circular 99"), replacing Circular No. 200/2014/TT-BTC providing guidance on the enterprise accounting regime issued by the Ministry of Finance on 22 December 2014 and several other related regulations.

The Group has applied changes in accounting policies in accordance with Circular 99, which have affected the Group on a prospective basis, as Circular 99 does not require retrospective application for these changes. The Company has also re-presented the corresponding figures of certain line items to conform with the presentation under Circular 99, as disclosed in Note 36.

3. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

3.1.2 Circular no. 43/2026/TT-BTC amending and supplementing circular no. 202/2014/TT-BTC providing guidance on preparation and presentation of consolidated financial statements

On 20 April 2026, the Ministry of Finance issued Circular No. 43/2026/TT-BTC ("Circular 43") amending and supplementing a number of articles of Circular No. 202/2014/TT-BTC, which provides guidance on the preparation and presentation of consolidated financial statements. Circular 43 is effective for the preparation and presentation of consolidated financial statements for financial years beginning on or after 1 January 2026.

The Group has applied the changes in accounting policies in accordance with the provisions of Circular 43 that have an impact on the Group on a prospective basis, depending on the specific accounts, as guided by the implementation provisions of Circular 43. Accordingly, the Group has also restated the corresponding comparative information for the prior period in respect of certain items to align with the presentation required under Circular 43 in these interim consolidated financial statements, as disclosed in Note 36.

3.2 Cash and cash equivalents

Cash and cash equivalents comprise cash on hand, cash at banks and short-term, highly liquid investments with an original maturity of less than three (3) months that are readily convertible into known amounts of cash and that are subject to an insignificant risk of change in value.

3.3 Inventories

Inventories comprise development projects undertaken by the Group which are in the work in progress stage and including mainly apartments, town houses and villas for sale under construction and land held for sale.

Apartments, town houses and villas for sale under construction are carried at the lower of cost and net realizable value. Costs include all expenditures including borrowing costs, directly attributable to the development and construction of the apartments, town houses and villas. Net realizable value represents current selling price less estimated cost to complete apartments, town houses and villas, and estimated selling and marketing expenses.

Land held for constructing apartments, town houses and villas which is presented as part of "Inventories" is carried at the lower of cost and net realizable value. Costs include all expenditures including borrowing costs directly related to the acquisition, site clearance, land compensation, and infrastructure construction. Net realizable value represents estimated current selling price less anticipated cost of disposal.

Provision for diminution in value of inventories

An inventory provision represents the estimated loss to reflect the decrease in value of inventories (through diminution, damage, obsolescence, etc.) below their carrying amount, and is intended to cover actual losses incurred from the decline in value of raw materials, finished goods and other inventories. The Group recognises the inventory provision when there is evidence that the net realisable value is lower than the cost of inventories.

Increases or decreases to the provision balance are recognised in cost of goods sold in the interim consolidated income statement. When inventories expire, become obsolete, are damaged or are no longer usable, the difference between the provision previously made and the historical cost of inventories is included in the interim consolidated income statement.

3. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

3.4 Receivables

Receivables are presented in the interim consolidated financial statements at the carrying amounts due from customers and other debtors, after provision for doubtful debts.

The provision for doubtful debts represents amounts of outstanding receivables at the statement of financial position date which are doubtful of being recovered. Increases or decreases to the provision balance are recorded as general and administrative expense in the interim consolidated income statement. When bad debts are determined as unrecoverable and accountant writtes off those bad debts, the differences between the provision for doubtful receivables previously made and historical cost of receivables are included in the interim consolidated income statement.

For overdue receivables, provision for doubtful debts is provided as follows:

Overdue period	*Provision rate (% of receivable value)*
From 6 months to less than 1 year	30
From 1 year to less than 2 years	50
From 2 years to less than 3 years	70
3 years or more	100

3. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

3.5 *Fixed assets*

Tangible fixed assets comprise assets with physical substance held by the enterprise for use in production and business activities, and biological assets consisting of perennial plants for periodic outputs and working animals

Tangible and intangible fixed assets are stated at cost less accumulated depreciation and amortisation.

The cost of a tangible fixed asset comprises its purchase price and any directly attributable costs of bringing the tangible fixed asset to the location and condition necessary for it to be capable of operating as intended by the Group and the costs of dismantling and removing the asset and restoring the site on which it is located, if any.

Expenditures for additions, improvements and renewals are added to the carrying amount of the assets and expenditures for maintenance and repairs are charged to the interim consolidated income statement as incurred.

When fixed assets are sold or retired, any gain or loss resulting from their disposal is (the difference between the net disposal proceeds and the carrying amount) included in the interim consolidated income statement.

Land use rights ("LURs")

LURs are recorded as intangible fixed assets if the land is held for use in the production or business, for rental to others by the enterprise and when the Group receives the LUR certificate. The cost of LUR comprises any directly attributable costs of preparing the land for its intended use. LUR with indefinite useful life is not amortised.

The advance payment for land rental, of which the land lease contracts have effectiveness prior to 2003 and the land use rights certificate being issued are recorded as intangible asset according to Circular No. 45/2013/TT-BTC issued by the Ministry of Finance on 25 April 2013 guiding the management, use and depreciation of fixed assets ("Circular 45"). The land use right is amortized over the useful life, except for land use right having indefinite useful life is not amortised.

3.6 *Leased assets*

Where the Group is the lessee

Rentals under operating leases are charged to the interim consolidated income statement on a straight-line basis over the lease term.

Where the Group is the lessor

Assets subject to operating leases are included as the Group's investment properties in the interim consolidated statement of financial position. Initial direct costs incurred in negotiating an operating lease are recognised in the interim consolidated income statement as incurred.

Lease income is recognised in the interim consolidated income statement on a straight-line basis over the lease term.

3. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

3.7 Depreciation and amortisation

Depreciation of tangible fixed assets and amortisation of intangible assets are calculated on a straight-line basis over the estimated useful life of each asset as follows:

Buildings and structures	25 - 47 years
Machinery and equipment	5 - 12 years
Means of transportation	6 - 8 years
Office equipment and furniture	3 - 8 years
Computer software	3 - 5 years
Land use rights	47 years
Other assets	3 - 5 years

3.8 Investment properties

Investment properties are stated at cost including transaction costs less accumulated depreciation and amortisation.

Subsequent expenditure relating to an investment property that has already been recognized is added to the net book value of the investment property when it is probable that future economic benefits, in excess of the originally assessed standard of performance of the existing investment property, will flow to the Group.

Depreciation and amortisation of investment properties are calculated on a straight-line basis over the estimated useful life of each asset as follows:

Buildings and structures	6 - 47 years
Land use rights	47 years

Investment properties are derecognised when either they have been disposed of or when the investment properties are permanently withdrawn from use and no future economic benefit is expected from its disposal. The difference between the net disposal proceeds and the carrying amount of the assets is recognised in the interim consolidated income statement in the year of retirement or disposal.

Transfers are made to investment properties when, and only when, there is a change in use, evidenced by ending of owner-occupation, commencement of an operating lease to another party or ending of construction or development. Transfers are made from investment properties when, and only when, there is change in use, evidenced by commencement of owner-occupation or commencement of development with a view to sale. The transfer from investment property to owner-occupied property or inventories does not change the cost or the carrying value of the property for subsequent accounting at the date of change in use.

3.9 Borrowing costs

Borrowing costs consist of interest and other costs that the Group incurs in connection with the borrowing of funds and are recorded as expense during the period in which they are incurred, except to the extent that they are capitalized as explained in the following paragraph.

Borrowing costs that are directly attributable to the acquisition, construction or production of an asset that necessarily take a substantial period of time to get ready for its intended use or sale are capitalized as part of the cost of the respective asset.

3. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

3.10 *Deferred expenses*

Deferred expenses are reported as short-term or long-term deferred expenses on the interim consolidated statement of financial position and are amortised over the period to which they relate or during which the related economic benefits are consumed.

The following types of expenses are recorded as long-term prepaid expense and are amortised to the interim consolidated income statement:

- Tools and consumables with large value issued into construction and can be used for more than one year;
- Show houses;
- Commission fees; and
- Other long-term prepaid expenses with associated economic benefits generated for more than one (1) year and being amortised over the period of no more than three (3) years.

3.11 *Business combinations and goodwill*

Business combinations are accounted for using the purchase method. The cost of a business combination is measured as the fair value of assets given, equity instruments issued and liabilities incurred or assumed at the date of exchange plus any costs directly attributable to the business combination. Identifiable assets and liabilities and contingent liabilities assumed in a business combination are measured initially at fair values at the date of business combination.

Goodwill acquired in a business combination is initially measured at cost being the excess of the cost the business combination over the Group's interest in the net fair value of the acquirer's identifiable assets, liabilities and contingent liabilities. If the cost of a business combination is less than the fair value of the net assets of the subsidiary acquired, the difference is recognized directly in the interim consolidated income statement. After initial recognition, goodwill is measured at cost less any accumulated amortization. Goodwill is amortised over a maximum period of 10 years on a straight-line basis. The parent company conducts the periodical review for impairment of goodwill of investment in subsidiaries. If there are indicators of impairment loss incurred is higher than the yearly allocated amount of goodwill on the straight-line basis, the higher amount will be recorded in the interim consolidated income statement.

3.12 *Investments*

Investments in associates

The Group's investment in its associate is accounted for using the equity method of accounting. An associate is an entity in which the Group has significant influence that is neither subsidiaries nor joint ventures. The Group generally deems they have significant influence if they have over 20% of the voting rights.

Under the equity method, the investment is carried in the interim consolidated statement of financial position at cost plus post acquisition changes in the Group's share of net assets of the associates. Goodwill arising on acquisition of the associate is included in the carrying amount of the investment. Goodwill is not amortised and subject to annual review for impairment. The interim consolidated income statement reflects the share of the post-acquisition results of operation of the associate.

The share of post-acquisition profit (loss) of the associates is presented on face of the interim consolidated income statement and its share of post-acquisition movements in reserves is recognised in reserves. The cumulative post-acquisition movements are adjusted against the carrying amount of the investment. Dividends/profit sharing received or receivable from associates reduces the carrying amount of the investment.

3. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

3.12 Investments (continued)

Investments in associates (continued)

The financial statements of the associates are prepared for the same reporting period and use the same accounting policies as the Group. Where necessary, adjustments are made to bring the accounting policies in line with those of the Group.

Investment in jointly controlled entities

The Group's investments in jointly controlled entities are accounted for using the equity method of accounting. Under the equity method, the investment is carried in the interim consolidated statement of financial position at cost plus post joint venture changes in the Group's share of net assets of the jointly controlled entities. The interim consolidated income statement reflects the share of the post-acquisition results of operation of the jointly controlled entities.

The share of profit (loss) of the jointly controlled entities is presented on face of the interim consolidated income statement and its share of post-acquisition movements in reserves is recognised in reserves. The cumulative post-acquisition movements are adjusted against the carrying amount of the investment. Dividend/profit sharing received or receivable from jointly controlled entities reduce the carrying amount of the investment.

The financial statements of the jointly controlled entities are prepared for the same reporting period and use the same accounting policies as the Group. Where necessary, adjustments are made to bring the accounting policies in the line with those of the Group.

Investments in other entities

Investments in other entities are stated at their acquisition costs.

Provision for investments

Provision of the investment is made when there are reliable evidences of the diminution in value of those investments at the statement of financial position date. Increases or decreases to the provision balance are recorded as finance expense in the interim consolidated income statement.

Held-to-maturity investments

Held-to-maturity investments are stated at their acquisition costs. After initial recognition, held-to-maturity investments are measured at recoverable amount. Any impairment loss incurred is recognised as finance expense in the interim consolidated financial statements and deducted against the value of such investments.

3.13 Payable and accruals

Payable and accruals are recognised for amount to be paid in the future for goods and services received, whether or not billed to the Group.

3. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

3.14 Accrual for severance pay

The severance pay to employee is accrued at the end of each reporting year for employees who have been worked for more than 12 months at Group. The accrued amount is calculated at the rate of one-half of the average monthly salary for each year of service qualified for severance pay in accordance with the Labour Code and related implementing guidance. The average monthly salary used in this calculation will be revised at the end of each reporting year following the average monthly salary of the 6-month period up to the reporting date. Increases or decreases to the accrued amount other than actual payment to employee will be taken to the interim consolidated income statement.

This accrued severance pay is used to settle the termination allowance to be paid to employee upon termination of their labour contract following Article 46 of the Labour Code.

3.15 Provision

Provisions are recognized when the Group has a present obligation (legal or constructive) as a result of a past event, it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and a reliable estimate can be made of the amount of the obligation.

Provision for warranty obligation of completed project is estimated of 3% to 5% on value of project based on the specification of each project and actual experience.

3.16 Foreign currency transactions

Transactions in currencies other than the Group's reporting currency of VND are recorded at the actual transaction exchange rates at transaction dates which are determined as follows:

- Transactions resulting in receivables are recorded at the buying exchange rates of the commercial banks designated for collection; and
- Transactions resulting in liabilities are recorded at the selling exchange rates of the transaction of commercial banks designated for payment.

At the end of the period, monetary balances denominated in foreign currencies are translated at the actual transaction exchange rates at the statement of financial position dates which are determined as follows:

- Monetary assets are translated at buying exchange rate of the commercial bank where the Group conducts transactions regularly; and
- Monetary liabilities are translated at selling exchange rate of the commercial bank where the Group conducts transactions regularly.

All foreign exchange differences incurred are taken to the interim consolidated income statement.

3.17 Treasury shares

Own equity instruments which are reacquired (treasury shares) are recognised at cost and deducted from equity. No gain or loss is recognised in profit or loss upon purchase, sale, re-issue or cancellation of the Group's own equity instruments.

3.18 Appropriation of net profit

Net profit after tax (excluding negative goodwill arising from a bargain purchase) is available for appropriation to investors after approval by appropriate level of authority, and after making appropriation to reserve funds in accordance with the Group's Charter and Vietnam's regulatory requirements.

3. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

3.18 *Appropriation of net profit* (continued)

The Group maintains the following reserve funds which are appropriated from the Group's net profit as proposed by the Board of Management and subject to approval by shareholders at the annual general meeting.

- *Investment and development fund*

  This fund is set aside for use in the Group's expansion of its operation or of in-depth investments.

- *Other funds belonging to owners' equity*

  Subsidised funds for operating activities, projects include remuneration schedule fund and operating budget fund.

- *Bonus and welfare fund*

  This fund is set aside for the purpose of pecuniary rewarding and encouraging, common benefits and improvement of the employees' benefits, and presented as a liability on the interim consolidated statement of financial position.

3.19 *Earnings per share*

Basic earnings per share amount is computed by dividing net profit attributable to ordinary equity holders of the Group (after adjusting for the bonus and welfare fund) by the weighted average number of ordinary shares outstanding during the period.

Diluted earnings per share amounts are calculated by dividing the net profit or loss after tax attributable to ordinary equity holders of the Group by the weighted average number of ordinary shares outstanding during the period plus the weighted average number of ordinary shares that would be issued on conversion of all the dilutive potential ordinary shares into ordinary shares.

3.20 *Revenue recognition*

Revenue is recognised to the extent that it is probable that the economic benefits will flow to the Group and the revenue can be reliably measured. Revenue is measured at the fair value of the consideration received or receivable, excluding trade discount, rebate and sales return. The following specific recognition criteria must also be met before revenue is recognised:

Revenue from construction contracts

Where the outcome of a construction contract can be estimated reliably, revenue and costs are recognised by reference to the amount of work completed as certified by customers at the statement of financial position date. Variations in contract work and claims are included to the extent that they have been agreed with the customer.

Where the outcome of a construction contract cannot be estimated reliably, contract revenue is recognised to the extent of contract costs incurred that are probable will be recoverable. Contract costs are recognised as expenses in the period in which they are incurred.

Sale of villas, town houses, and apartments

For villas, town houses and apartments sold after completion of construction, the revenue and associated costs are recognised when the significant risks and rewards of ownership of the villas, town houses, or apartments have passed to the buyers.

Sale of residential plots and related infrastructure

Revenue from the sale of residential plots and related infrastructure are recorded at the total consideration received when residential plots and related infrastructure are transferred to the customers.

3. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

3.20 Revenue recognition (continued)

Rendering of other services

Revenue is recognised when services have been rendered and completed.

Interest

Interest is recognised as the interest accrues (taking into account the effective yield on the asset) unless collectability is in doubt.

Dividends

Dividend is recognised when the Group's entitlement as an investor to receive the dividend is established.

Rental income

Rental income arising from operating leases is accounted for on a straight line basis over the terms of the lease in the consolidation income statements.

3.21 Selling expenses

Selling expenses reflect actual costs incurred in connection with the sale of goods and the provision of services.

3.22 General and administrative expenses

General and administrative expenses reflect actual costs incurred in the course of the general management of the Group.

3. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

3.23 Taxation

Current income tax

Current income tax assets and liabilities for the current and prior years are measured at the amount expected to be recovered from or paid to the taxation authorities. The tax rates and tax laws used to compute the amount are those that are enacted as at the statement of financial position date.

Current income tax is charged or credited to the interim consolidated income statement, except when it relates to items recognised directly to equity, in which case the current income tax is also dealt with in equity.

Current income tax assets and liabilities are offset when there is a legally enforceable right for the Group to offset current tax assets against current tax liabilities and when the Group intends to settle its current tax assets and liabilities on a net basis.

Deferred tax

Deferred tax is provided using the liability method on temporary differences at the interim consolidated statement of financial position date between the tax base of assets and liabilities and their carrying amount for financial reporting purposes.

Deferred tax liabilities are recognised for all taxable temporary differences, except where the deferred tax liability arises from the initial recognition of an asset or liability in a transaction which at the time of the related transaction affects neither the accounting profit nor taxable profit or loss.

Deferred tax assets are recognised for all deductible temporary differences, carried forward unused tax credit and unused tax losses, to the extent that it is probable that taxable profit will be available against which deductible temporary differences, carried forward unused tax credit and unused tax losses can be utilised, except where the deferred tax asset in respect of deductible temporary difference which arises from the initial recognition of an asset or liability which at the time of the related transaction, affects neither the accounting profit nor taxable profit or loss.

The carrying amount of deferred tax assets is reviewed at each statement of financial position date and reduced to the extent that it is no longer probable that sufficient taxable profit will be available to allow all or part of the deferred tax asset to be utilised. Previously unrecognised deferred tax assets are re-assessed at each statement of financial position date and are recognised to the extent that it has become probable that future taxable profit will allow the deferred tax assets to be recovered.

3. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

3.23 *Taxation* (continued)

Deferred tax (continued)

Deferred tax assets and liabilities are measured at the tax rates that are expected to apply in the year when the asset is realised or the liability is settled based on tax rates and tax laws that have been enacted at the statement of financial position date.

Deferred tax is charged or credited to the interim consolidated income statement, except when it relates to items recognised directly to equity, in which case the deferred tax is also dealt with in the equity account.

Deferred tax assets and liabilities are offset when there is a legally enforceable right for the Group to offset current tax assets against current tax liabilities and when they relate to income taxes levied by the same taxation authority on either the same taxable entity.

3.24 *Related parties*

Parties are considered to be related parties of the Group if one party has the ability to, directly or indirectly, control the other party or exercise significant influence over the other party in making financial and operating decisions, or when the Group and other party are under common control or under common significant influence. Related parties can be enterprises or individuals, including close members of their families.

3.25 *Segment information*

A segment is a component determined separately by the Group which is engaged in providing products or related services (business segment), or providing products or services in a particular economic environment (geographical segment), that is subject to risks and returns that are different from those of other segments. As the Group's revenue and profit are derived mainly from real estate business in Vietnam while other sources of revenue are not material as a whole, the Group's management is of the view that there is only one segment for business and geography and therefore presentation of segmental information is not required.

4. SIGNIFICANT EVENTS DURING THE PERIOD

4.1 *Acquisition of shares transfer to increase ownership in Paragon*

On 12 January 2026, the Company completed the shares transfer acquisition by cash amounting to VND 312,425,000,000 into Paragon. Accordingly, the Company's ownership percentage increased from 50.53% to 58.90% as of this date. The additional capital contribution was approved by the Department of Finance of Ho Chi Minh City through the issuance of the 11th amended ERC No. 0315398472 for Paragon dated 3 June 2026. *(Note 16.1)*.

Weighted average number of ordinary shares during the period *(shares)*	485,097,383	385,075,304
Weighted average number of ordinary shares adjusted for the effect of dilution	**485,097,383**	**385,075,304**
Earnings per share *(VND)*		
Basic earnings per share	*246*	*859*
Diluted earnings per share	*246*	*859*

(i) Net profit used to compute earnings per share for the nine-month period ended 30 September 2025 was restated following the actual distribution to Bonus and welfare funds from 2025 undistributed earnings as approved in the Annual General Meeting's Resolution No. 01/2026/NQ/DHDCD/NLG dated 25 April 2026 ("AGM Resolution 2026").

Net profit used to compute earnings per share for the nine-month period ended 30 September 2026 is adjusted for distribution to Bonus and welfare funds and remuneration of the Board of Directors as approved in accordance with the AGM Resolution 2026.

Ho Chi Minh, 27 October 2026

Re: Explaining the variance from 10% and above of consolidated profit after tax of Quarter 3.2026 and the nine-month period ended 30 September 2026 compared with the same period last year.

To: - **STATE SECURITIES COMMITTEE**
- **HO CHI MINH CITY STOCK EXCHANGE**

- Company name: Nam Long Investment Corporation
- Ticker: NLG
- Head office: No. 6, Nguyen Khac Vien Street, Tan My Ward, Ho Chi Minh City, Vietnam
- Phone: 028 5416 1718 Fax: 028 54171819

Pursuant to clause 4, article 14, chapter III of the Circular No. 96/2020/TT-BTC dated 16 November 2020 of the Ministry of Finance which was effective from 1 January 2021 guiding on the information disclosure for securities market, Nam Long Investment Corporation hereby explains the variance from 10% and above of consolidated profit after tax of Quarter 3.2026 and the nine-month period ended 30 September 2026 compared with the same period last year as below:

No	Items	Quarter 3.2026 (dong)	Quarter 3.2025 (dong)	Var
1	Revenues	327,684,860,843	1,877,218,621,324	-83%
2	Net profit after tax	5,354,259,744	234,048,067,926	-98%

The consolidated revenues of Quarter 3.2026 reached 327 billion dong, decreased by 1,550 billion dong or 83% as compared to the same period of previous year. The revenue was mainly contributed from revenue of apartments, town house and villas (which was accounted for 72% of total revenues). Net profit of Quarter 3.2026 decreased 229 billion dong or 98% as compared with the same period as previous year mainly due to decreased revenues during the period.
